

Dr Chris Ward

- Commenced on the Board in 2016
- Member of Master Facilities Committee

Passion for ELTHAM College

My connection with ELTHAM began in 1982 as a Year 7 student. Now, my three children are here creating their own memories. I welcome the opportunity to support the exciting work being undertaken by the ELTHAM Board and offer my skills in outcome-focused collaboration, grounded in evidence, best practice and innovation.

Professional Background

I currently work as a paediatrician in private practice and at the Royal Children's Hospital, with particular interest in early childhood health and development, education and equality. I have experience in corporate governance and leadership, mainly in the public hospital sector, and also run a successful medical business.

Other Community Involvement

I have lived in ELTHAM for much of my life and continue to have strong relationships within the community.
